📁 PROFESSIONAL EXPERIENCE

Network Operations Centre (NOC) Support Engineer

Integrated Power Technology Limited (Sub-Contractor to American Tower Corporation - Direct vendor to MTN and AIRTEL)

May 2024 – Present
Lagos

- Serve as the primary point of contact for customer-impacting technical incidents across more than 500 telecommunications sites, ensuring timely issue resolution, SLA compliance, and a positive customer experience.
- Coordinate field engineers, vendors, and cross-functional support teams to ensure timely resolution of customer-impacting incidents and adherence to service level agreements.
- Monitor service performance, identify recurring issues, and recommend preventive actions that improve operational efficiency and customer experience.

Network Operation Centre Support Engineer

Hatfield Consult Limited (Sub-Contractor to American Tower Corporation - Direct vendor to MTN and AIRTEL)

Jul 2022 – Apr 2024
Lagos

- Delivered professional customer support through multiple communication channels while coordinating with engineers to ensure timely resolution of customer-impacting incidents.
- Maintained detailed incident documentation, RCA reports, and service handovers to improve knowledge sharing and operational consistency.

- Collaborated with cross-functional engineering teams to prioritise incidents and improve overall customer satisfaction.

Information Technology Support Engineer

Smartware Innovation

Feb 2021 – May 2022

Kano

- Delivered first- and second-line technical support to over 100 end users, consistently achieving a 95%+ first-contact resolution rate while maintaining high customer satisfaction.
- Provided prompt and professional support for hardware, software, Microsoft 365, and network-related issues through remote and on-site assistance.
- Managed user accounts, password resets, and access permissions using Active Directory, ensuring secure and uninterrupted access to business resources.
- Coordinated onboarding and offboarding activities, including workstation deployment, email configuration, and user orientation for new employees.
- Collaborated with internal departments to resolve technical issues efficiently, minimising downtime and improving employee productivity.
- Reduced support tickets by 20% through proactive maintenance, user education, and preventive system optimisation.
- Implemented endpoint security and antivirus solutions, reducing unexpected system failures by 50%.
- Maintained accurate support documentation and asset records to improve service delivery and operational efficiency.

Technical Support Engineer

Alren Construction Co. Limited

Jan 2019 – Jan 2021

Kano

- Served as the primary point of contact for technical support requests from expatriates and employees, delivering timely remote and on-site assistance.
- Resolved hardware, software, printer, VPN, and network connectivity issues while maintaining excellent customer service standards.
- Coordinated the setup of laptops, email accounts, user profiles, and system access for new employees, ensuring seamless onboarding.
- Collaborated with different departments to identify and resolve recurring technical issues, improving operational efficiency.
- Designed an Excel-based vehicle tracking system that eliminated avoidable fines and improved administrative processes.
- Installed, configured, and maintained computer hardware, operating systems, and peripherals while ensuring minimal disruption to business operations.
- Maintained detailed service records and incident logs to support knowledge sharing and continuous service improvement.

Computer Instructor & Lab Technician

Best Gift Comprehensive College

Oct 2015 – Mar 2016

Lagos

- Provided first-line technical support to staff and students, resolving hardware, software, printer, and network-related issues with a 98% resolution rate.
- Maintained computer laboratories, IT equipment, and network resources to ensure uninterrupted teaching and administrative activities.
- Installed, configured, and supported computer systems, software applications, and peripherals.
- Managed IT inventory and conducted routine preventive maintenance to reduce equipment downtime.
- Delivered user guidance and technical assistance, helping staff and students maximise the effective use of IT resources.

SELECTED ACHIEVEMENTS

- Maintained a 95%+ first-contact resolution rate while supporting over 100 corporate users.
- Reduced support tickets by 20% through proactive maintenance and user education.

- Improved service reliability by reducing system failures by 50% through preventive maintenance.
- Contributed to a 30% reduction in network downtime through effective incident management and escalation coordination.
- Helped the team earn the Team of the Year Award (2022) through collaborative service delivery and process improvements.

VOLUNTEER ACTIVITIES

EnovateLab Foundation

Shenovate Mentor (Volunteer)

Nov 2022

Lagos

- Mentored and trained 25 female college students in web development fundamentals, fostering technical skills, collaboration, and confidence in technology.
- Simplified technical concepts into easy-to-understand lessons, demonstrating strong communication, coaching, and interpersonal skills.
- Supported the Foundation's initiative to promote female participation in technology through knowledge sharing and mentorship.
